

Placeonix — SEO Keyword Research

Hyderabad IT-training market · Competitor & keyword analysis

Site: placeonix-dashboard.vercel.app · Prepared for Mohan · July 2026

Note on competitor claims: Figures such as "92% placed", "Ranked #1", and "100% placement" are marketing copy on competitor sites, not verified facts. They are excluded from the analysis; this focuses on who Google actually surfaces and how their pages are structured.

1. Who ranks on Google Page 1 in Hyderabad

Course area	Top-ranking competitors	What their winning pages do
SAP (general)	Croma Campus, GTR Academy, ModernTech Academy, UCPL, SIPL, i3 IT Solutionz	Title = "Best SAP Training Institute in Hyderabad with Placement"; module breakouts; fee ranges; Ameerpet geo-signal
Data Science	Codegnan, 360DigiTMG, Brolly, Innomatics, StarAgile, FITA, Boston Institute of Analytics	Duration + hours; hiring-partner counts; curriculum lists; salary/LPA hooks; heavy FAQ blocks
GenAI / AI	Brolly, Generative AI Masters, FITA, ExcelR, School of Core AI	"for Freshers 2026" angle; LLM / prompt-engineering / MLOps keywords; transparent fees; capstone framing
SAP BTP / ABAP	Version IT, GreenByte, Index IT, Emax, FuturePath, Oasis	Niche long-tail ("ABAP on Cloud RAP in BTP"); named-trainer authority; "job-oriented" phrasing

Winning pattern: [Course] Training/Course in Hyderabad with Placement + Ameerpet geo-signal + curriculum list + transparent fees + a large FAQ block. The FAQ block is also what wins AI/LLM search.

2. Top 10 primary keywords — ranked

- SAP training in Hyderabad with placement** — biggest commercial prize; anchor SAP page + homepage. High
- data science course in Hyderabad with placement** — highest-intent term in fastest-growing category. High
- generative AI course in Hyderabad** — competitors still weak here; land grab. High
- best software training institute in Hyderabad with placement** — homepage brand term tied to your USP. High
- gen AI course for freshers Hyderabad** — your audience, low competition = quick wins. High
- SAP BTP course in Hyderabad** — high-value, low-competition niche; rankable fast. Med-High

7. **SAP ABAP training in Hyderabad** — strong module intent, steady volume. High
8. **AI course with placement Hyderabad** — rising demand, matches positioning. Med-High
9. **SAP BTP vs SAP ABAP** — informational; feeds the comparison page & AI-search. Med
10. **software course in Ameerpet** — local geo-signal every competitor exploits; cheap to win. Med

3. Full keyword → page mapping

4. What to copy, what to beat

Move	Action
Copy	The title formula ([Course] Training in Hyderabad with Placement), on-page fee transparency, curriculum/module lists, and large FAQ blocks (these earn featured snippets + LLM answers).
Beat	SAP BTP/ABAP niches and GenAI-for-freshers — thin competition, realistic to hit Page 1 faster than ultra-competitive "SAP training Hyderabad".
Your edge	Real, specific placement outcomes. Competitors only assert placement — publishing genuine alumni results differentiates on the exact claim everyone else makes vaguely.
